Art Unit: 1625

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15, drawn to cyanine dyes and a method of using them, classified in class 546, subclass 152 e.g..
- II. Claims 16-20, drawn to a method for monitoring a real time PCR reaction using a fluorescent dye of broader scope than that claimed in Group I., classified in class 435, subclass 91.2.

Restriction is proper because the above inventions are not dependent upon each other since the scope of the active ingredient is different.

During a telephone conversation with Mr. Goozner on 5-22-2006 a provisional election was made with traverse to prosecute the invention of Gp. I, claims 1-15.

Affirmation of this election must be made by applicant in replying to this Office action.

Claims 16-20 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to a non-elected invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. "Carbohydrate" in both claims is inapt.

Applicants must provide a verified copy of their PCT and Swedish priority documents. Any inquiry concerning this communication or earlier communications from
